

JAS | ALUMINIUM JACKS

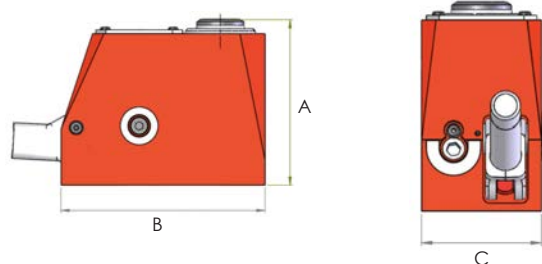

Maximum capacity 10 tonnes

Choice of 75 mm or 125 mm hydraulic lift height

Internal safety overload device

- ▶ Lightweight aluminium jack body
- ▶ Spring assisted piston retraction
- ▶ Nitrocarburised steel piston for increased corrosion resistance
- ▶ Over stroke safety limiting device

Model number	Capacity (tonnes)	Stroke (mm)	Weight (kg)	Dimensions (mm)		
				A	B	C
JAS103	10	75	4.3	131	162	121
JAS105	10	125	5.7	181	162	121
